

MAREDI SPEEL MANYAMA

Software Developer | Full-Stack Developer

Midrand, South Africa | 0720746800 | kmanyama009@gmail.com | github.com/KamzaManyama | linkedin.com/in/maredi-manyama-711269281

PROFESSIONAL SUMMARY

Software Developer with hands-on production experience building web applications using React, JavaScript, TypeScript, and Node.js. Experience spans frontend and full-stack development on high-traffic platforms, backed by strong software testing (Playwright automation, manual and regression testing) and technical SEO implementation. Comfortable working in agile, cross-functional production environments.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap, Redux

Backend: Node.js, Express.js, REST APIs

Databases: MySQL, Firebase

Testing & QA: Playwright, Manual Testing, Regression Testing, Integration Testing, Defect Tracking

Tools & Engineering: Git, GitHub, CI/CD, Chrome DevTools

Technical SEO: Dynamic SEO Handlers, Schema Markup, Metadata, Search Indexing

PROFESSIONAL EXPERIENCE

Software Quality Assurance Engineer Consultant — E4

Current

- Developed and maintained Playwright-based end-to-end automated test suites to support reliable web application releases.
- Executed functional, regression, and integration testing across production web applications.
- Analysed test results and logged detailed defects with clear reproduction steps to speed up resolution.
- Collaborated with cross-functional development teams to improve software quality and release readiness.
- Contributed to continuous integration pipelines and test automation strategy, strengthening test coverage.

Technologies: Playwright, JavaScript (ES6+), TypeScript, CI/CD, Git

Software Developer & SEO Content Author — PantherBet

3 months

- Built and maintained frontend features for a high-traffic online betting platform using React.js, JavaScript (ES6+), TypeScript, and Tailwind CSS.
- Developed dynamic SEO handlers in Node.js to render accurate, page-specific metadata and structured data, improving technical SEO performance and search visibility.
- Performed automated testing with Playwright and manual testing, designing and maintaining test cases to support system reliability.
- Identified, documented, and tracked defects through to resolution, collaborating with developers to improve performance.
- Worked within an agile team to deliver secure, high-quality, conversion-focused solutions in production.

Technologies: React.js, JavaScript (ES6+), TypeScript, Tailwind CSS, Node.js, Playwright, Git

Software Development Consultant — Sunbet

1 year

- Maintained and enhanced enterprise-level production systems for an online casino and sports betting platform using React.js, JavaScript, Tailwind CSS, and Node.js.
- Implemented new features and enhancements across the web platform to support business and user needs.
- Improved system performance and contributed to application reliability in a live production environment.
- Collaborated within an agile team, using Git for version control and code review to deliver high-quality solutions.

Technologies: React.js, JavaScript, Tailwind CSS, Node.js, Git

Software Developer Intern — MPHOTI Consulting

6 months

- Developed frontend features using JavaScript, HTML5, CSS3, and React.js, contributing to real-world client projects.
- Debugged and tested application functionality, contributing to UI improvements.
- Built foundational experience in professional software development practices, including Git-based version control.

Technologies: *JavaScript, HTML5, CSS3, React.js, Git*

EDUCATION

Diploma in Computer Science

Tshwane University of Technology (TUT)

Relevant coursework: Software Development, Web Engineering, Databases, Systems Analysis, Software Testing, Algorithms and Data Structures.

SELECTED PROJECTS

Invoice Ingest

- Full-stack invoice processing system that automates supplier invoice ingestion from CSV files, validates South African VAT rules, and removes duplicates.
- Stores processed data in MySQL and triggers Gmail alerts after each run, improving financial workflow efficiency and accuracy.

Technologies: *Node.js, Express, MySQL, Tailwind CSS, HTML*

AA Business Consultants

- Built a responsive ISO consultancy website communicating compliance and certification services clearly to potential clients.

Technologies: *HTML, Tailwind CSS, JavaScript*

JW Saints College

- Built a fully responsive school website providing accessible information and communication for students, parents, and staff.

Technologies: *HTML, Tailwind CSS, JavaScript*
